Power Management Renews Sponsorship of Professional Golfer Gavin Hall for the 2024 Season

Rochester, NY — August 21, 2024 — Power Management Company, a leading provider of energy management and sustainability services, is excited to announce the renewal of its sponsorship agreement with professional golfer Gavin Hall for the remainder of the 2024 season. This renewed partnership, which includes support from Rochester-based company Century Mold, will continue to back Hall as he advances his professional golf career.

Gavin Hall has consistently demonstrated the qualities that Power Management values most—integrity, determination, and perseverance. John Burt, CEO of Power Management, expressed his excitement about the renewed partnership, “Gavin embodies the spirit of continuous improvement and resilience that we strive for at Power Management. We’re thrilled to support him as he continues to excel in his career.

Currently, Hall holds full status on the PGA Tour Americas tour and is ranked No. 76 on the Fortinet Cup list. With three events remaining this season, Hall is eager to improve his standing. His next competition will be at the Centreport Rail Park Open in Manitoba, from August 22-25. Following this, one more event will take place in Minnesota, with the Tour concluding at TPC Toronto, the site of the 2025 Canadian Open, for the Tour Championship.

As Hall prepares for the challenges ahead, including the PGA Tour Qualifying School, he expressed his gratitude for the support he’s received. “I feel very grateful to have such incredible leaders from the Rochester community supporting my journey. I will continue to represent their companies with the highest level of effort and professionalism.”

About Power Management:

Founded in 1997, Power Management is an independent energy consulting firm, headquartered in Victor, NY, helps organizations go beyond procuring energy. They provide clients with access to a diverse offering of energy cost and risk management solutions, such as energy audits, lighting and lighting control upgrades, community solar and top-of-the-line EV Charging technologies. Power Management is a trusted energy partner, educator, and advisor to businesses, property owners, and real estate professionals across North America.
